Informatics Engineering student with experience in developing web applications. Skilled in front-end development and building responsive, user-friendly interfaces. Strong ability to work in teams and deliver clean, efficient code to create impactful user experiences.

Education

Politeknik Negeri Malang – Malang 2022 - 2026

Bachelor Degree of Informatics Engineering, GPA: 3.76/4.00

- Learn about Java, Data Structures, Web Development, and Mobile Programming
- Hands-on experience with collaborative projects and problem-solving skills in software engineering
- Focus on building full-stack web applications and mobile app development

SMAN 1 Dukun – Gresik 2019 - 2022

High School Diploma in Natural Science

- Focused on science and mathematics
- Participated in graphic design extracurricular activities and competitions

Project Experience

Project Based Learning 4th Semester

- Collaborated with a teammate to ensure smooth functionality and meet the administrative needs of RW in Villa Bukit Tidar.
- Developed Sawira, a web-based e-government application using Laravel, Bootstrap, and MySQL.
- Implemented features for managing archives, correspondence, and innovative zakat fitrah distribution.
- Focused on delivering a user-friendly interface that enhances community empowerment and administrative efficiency.

Project Based Learning 3rd Semester

- Collaborated with a teammate to develop a room loan system using native PHP and TailwindCSS
- Designed and implemented a responsive user interface for a smooth user experience
- Integrated front-end features by working closely with the back-end developer

Organizational Experience

Workshop Riset Informatika Oct 2023 - Oct 2024

Web Developer Mentor

- Guide and support students or junior developers in learning web development concepts and best practices.
- Help mentees troubleshoot issues, debug code, and implement web development solutions.
- Helped mentees complete complex projects or assignments with improved code quality.

Polinema Mengajar Oct 2023 - Des 2023

Teaching Staff

- Instructed elementary school students in various subjects, fostering a positive learning environment
- Developed engaging lesson plans and educational materials to enhance student understanding
- Assisted elementary school students with homework and academic projects

Skill & Certification

- **Hard Skills** : HTML, CSS, Javascript, PHP, Laravel, TailwindCSS, Bootstrap, NodeJS, Git, MySQL
- **Soft Skills** : Problem Solving, Strong collaboration and teamwork skills in dynamic projects, Capable of adapting to any environments, Managing time to meet tight deadlines and achieving project goals.
- **Certifications** (2024) : Belajar Dasar Pemrograman Web (Dicoding)
- **Certifications** (2024) : Belajar Membuat Front-End Web untuk Pemula (Dicoding)
- **Certifications** (2024) : Belajar Dasar Pemrograman JavaScript (Dicoding)
